

Material Handling Analysis Contract Deliverable Exemplar

ARDAK will provide an assessment of the competitor’s Material Handling burdening both from the point of view of burdening policy (Value Added, Fixed Costs, Direct Material, Other Material, etc.) and estimated burden rate. Material Handling Analysis will be developed for each cost center analyzed. An exemplar for this task may be found below:

DynCorp International LLC DynLogistics Material & Handling Burdening*	
COTS Procurement	1.511%
Custom Procurement	3.535%
Composite Procurement	2.223%
Subcontractor Handling	1.718%
*Results based on Value Added Burdening	

- **COTS Procurement:** 100% Commercial Off The Shelf catalog-type orders.
- **Custom Procurement:** 100% Customer specification-based efforts.
- **Composite Procurement:** A blend of 80% COTS Procurement with 20% Custom Procurement.
- **Subcontractor Handling:** A fee representative of administrative costs associated with handling of subcontracts and materials.
